

## How to setup your digital wallet: **Apple Wallet**

Using a Digital Wallet, you can make purchases quickly and securely with your smartphone at a payment terminal or online.

### **SET UP IS EASY. HERE'S HOW:**

1. **Open the Wallet app** on your iPhone (It's already installed on your device.)
2. **Tap the + (Add) button.** Then select Debit or Credit Card
3. **Use your camera to scan your SCCCU debit or credit card**, or enter the details manually.
4. **Follow the prompts to verify your card**
5. **Your card is now in your wallet and ready to use**

**IMPORTANT:** You may see a small temporary charge on your account during setup. This is a verification step and will disappear shortly. It does not affect your balance.

### **SIMPLE TO USE.**

Once you set up your digital wallet, here's how to use it:

1. Look for the contactless symbol at checkout
2. Double-click the side button on your iPhone
3. Authenticate using Face ID, Touch ID, or your passcode
4. Hold your phone near the payment terminal
5. You'll see a checkmark when payment is complete

### **SAFE AND SECURE.**

Apple Pay does not share your actual card number with merchants. Instead, it uses encrypted payment information to help protect your account. Authentication with Face ID, Touch ID, or passcode is required for each purchase.
